

OMIDYAR NETWORK™

It is our pleasure to invite you to the

Technology For Citizen Engagement

Thursday, 5 December 2013

**The Lalit, Regency I & II Barakhambha Avenue,
Connaught Place, New Delhi 110 001**

The inaugural 'Technology For Citizen Engagement' workshop is a highly interactive platform aimed at facilitating interaction and collaboration between Technology Providers and Civil Society Organizations.

While traditional ways of reaching out to citizens will continue to be very important, there is growing recognition that technology can be a huge enabler in reaching out to large numbers of people across the country. This workshop is designed to allow participants to ideate on new concepts and discover ways to leverage the power of technology.

**Please RSVP by Wednesday, 4 December 2013 via email to Mercia Cordeiro
(mcordeiro@omidyar.com)**
