# ADR Activities: 2019-20

## History of ADR

The inception of Association for Democratic Reforms (ADR) can be traced back to 1999 when a group of Professors from the Indian Institute of Management (IIM), Ahmedabad, anguished by the alarming rise of criminality in the Indian political system, filed a Public Interest Litigation (PIL) in Delhi High Court requesting for the disclosure of the criminal, financial and educational background of the candidates contesting elections. Based on this, the Supreme Court in 2002, and subsequently in 2003, made it mandatory for all candidates contesting elections to disclose criminal, financial and educational background prior to the polls by filing a self-sworn affidavit with the Election Commission. In March 2003, ADR was formally registered as an NGO.

### Mission

**To improve governance and strengthen democracy by continuous work in the area of Electoral and Political Reforms**

### Focus Areas

- **Corruption & criminalization in the political process**
- **Empowerment of the electorate through greater dissemination of information relating to the candidates and the parties, for a better and informed choice.**
- **Need for greater accountability of Political Parties.**
- **Need for inner-party democracy and transparency in party-functioning**

# Election Watch

**About:** The first Election Watch (the flagship programme of ADR) was conducted in 2002 for Gujarat Assembly Elections whereby detailed analysis of the backgrounds of candidates contesting elections was provided to help the electorate make an informed choice during polls. Since then ADR has conducted Election Watches for almost all States, Lok Sabha and Rajya Sabha elections. State Election Watch chapters help National Election Watch (NEW) and ADR to reach to the maximum voters.

## Political Party Watch

**About:** As political parties play a crucial role in a democracy, good governance would remain a distant dream without accountability and transparency in the internal functioning and financials of Political Parties. In 2008, ADR started a new program called Political Party Watch (PPW) to thoroughly analyze the Donations Report, Income Tax Returns and Election Expenditure Reports of Political Parties and disseminate the information to the Public. For the verification of the facts and figures, PPW always supports its reports with scanned copies of Income Tax Returns of various political parties (national, regional and un-recognised parties) and RTI applications. These reports have revealed that currently only National Parties and very few Regional Parties file their IT Returns on a regular basis every year.

**PPW Data Source:** Income Tax returns and the donations details submitted to the IT Department and the Election Commission respectively by the political parties themselves.

**Following analyses on Political Parties were undertaken during FY 2019-20:**

# Strategic Litigation

**About:** Strategic litigation is another vital tool through which ADR has been able to create a momentum for required reform in the political and electoral system. ADR has initiated/intervened in several PILs, some of which have resulted in landmark judgments.

## **PILs filed by ADR during FY 2019-20:**

**I. Supreme Court Judgment on Satish Ukey vs. Devendra Gangadharrao Fadnavis:** This matter dealt with concealment of information by Maharashtra C.M. Devendra Fadnavis in his affidavit during the Maharashtra State Assembly elections, 2014. In his affidavit, he had not mentioned the information regarding two criminal cases prescribing punishment of more than two years and where cognizance was taken by the court. The intervention application was filed by ADR in the Supreme Court in January, 2019 since the matter was pertaining to furnishing of information in the affidavits by candidates at the time of election (Form 26) and ADR was the original party in the 2000, 2002 and 2003 affidavit judgments.

On **1st October, 2019**, the Supreme Court gave a favourable ruling and held the following:

- For maintaining purity of elections and healthy democracy, voters are required to be educated and well informed about the contesting candidates. There is no necessity of suppressing the relevant facts from the voters.
- Mr. Devendra Gangadharrao Fadnavis missed out on giving details of two cases where court has taken the cognizance.
- Details of all pending cases in which **cognizance has been taken by the Court, irrespective of the quantum of punishment or framing of charges will have to be disclosed by the candidate.**

- Under Section 125A, furnishing of any false information or concealing of information in the affidavit in Form 26 is an electoral offence punishable with imprisonment upto six months, or with fine or both.
- Order of the High Court as well as trial court is not legally tenable **and the same deserves to be set aside.**
- The complaint of the appellant will be considered afresh by the learned trial Court.

## **II. PIL in the Supreme Court against Electoral Bonds and removal of the 7.5% of the company's aggregate limit to donate:**

This petition challenges the Finance Act, 2017 which was enacted as a money bill which introduced the electoral bond scheme for the purpose of electoral funding. The Act has also removed the previous limit of 7.5% of the company's average three-year net profit for political donations. A company is no longer required to name the political parties to which such contributions are made. The donors' name is also not revealed to the public. These amendments will result in opaqueness, heighten the odds of conflict of interest and also drastically increase black money and corruption. It will also lead to the creation of shell companies and rise of benami transactions to channelize the undocumented money into the political and electoral process in India.

**Status:** On 5<sup>th</sup> March, 2019 ADR filed an application for stay against the sale/purchase of electoral bonds for Lok Sabha 2019 elections. In the stay application ADR had contended that enormous amount of corporate funding would be received by political parties during the general elections and this would play a critical role in the elections. It was also argued that the common citizens are not buying these bonds and these are being bought only by big corporates to protect their interests. It was also revealed during the hearing that there was hardly any demand for electoral bonds of smaller denomination as 99.9% of bonds sold were of Rs. 10 lakh & Rs. 1 crore denomination.

In response to ADR's application, the Supreme Court in its **interim order dated 12<sup>th</sup> April, 2019** directed all political parties to submit details of donations received via Electoral Bonds to the Election Commission of India in a sealed cover on or before 30<sup>th</sup> May, 2019. As per the interim order, political parties are required to submit the following details:

- Detailed particulars of the donors as against each Bond.
- The amount of each such bond and the full particulars of the credit received against each bond, namely the particulars of the bank account to which the amount has been credited and the date of each such credit.

On **29th November 2019**, ADR filed another application for stay against the sale/purchase of Electoral Bonds in the Supreme Court to bring on record certain vital documents surfaced through various RTI applications filed by different RTI activists and had a strong bearing on the instant case.

**III. PIL in the Supreme Court on mechanism of declaration of election results, voter discrepancies:** On **4<sup>th</sup> November, 2019**, Association for Democratic Reforms (ADR) filed a petition to seek a direction from the Supreme Court directing the ECI not to announce any provisional and estimated election results prior to actual and accurate reconciliation of data. In the petition, ADR also seeks a direction from SC to the ECI to evolve an efficient, transparent, rational and robust procedure/mechanism by creating a separate department/grievance cell for investigation of discrepancies in election data and for responding to the elector's queries on the same. Through this petition, ADR is not challenging or questioning the final result of 2019 General Elections or the election process in the country. However, the issues and irregularities that arose in the conduct of the election/result of 2019 General Elections have been cited as arguments for effectuating free and fair elections, the survival of democracy and enforcement of fundamental rights.

- On 27th February, 2020 ADR filed an application in the Supreme Court to direct the Election Commission of India to;
- Not to destroy or dispose of VVPAT paper slips generated in any election in the last one year and to retain the same at least for a period of one year in consonance with the rules of Conduct of Elections Rules, 1961;
  - b) To retain all other documents pertaining to the 17th Lok Sabha elections held in April, 2019.

The application was filed against the 'mysterious rush and urgency' shown by the Election Commission of India to destroy VVPAT slips used in 2019 Lok Sabha elections in just four months after the results were declared – in contravention of the rules prescribed under the Conduct of Election Rules, 1961.
