Expenditure on Publicity by political parties

- Political Parties are required to segregate their publicity expenses under three heads: **Media Advertisement, Publicity Materials** and **Public Meetings**.

Observations of ADR

- The election expenditure statements of **21** National and Regional parties **including NPEP, SHS(UBT), SHS, CPI, NCP, JMM, BPF, JKNC and AD(Soneylal)** etc. for the 2024 Lok Sabha elections are **unavailable on the website of ECI at the time of preparation of this report**. The expenditure statements of **RJD, LJP(RV), AJSU KC(M)** are not available for the concerned 2024 assembly elections contested in the states of Andhra Pradesh, Arunachal Pradesh and Odisha.
- A total of **690 Unrecognised Political Parties** contested in the **General Elections** last year, while **1** in **Arunachal Pradesh, 74** in **Andhra Pradesh, 35** in **Odisha**, and **2** in **Sikkim** contested in the assembly elections held simultaneously, whose expenditure statements have not been analysed as part of this report.
- 12 Regional parties namely, LJSP, RLSP, JCC(J), GFP, MGP, MNS, HSPDP, PDF, ZNP, AINRC, IPFT and TMP did not contest the elections to Lok Sabha and state assemblies of Arunachal Pradesh, Andhra Pradesh, Odisha and Sikkim 2024.
- It is important to note that the election expenditure details of the parties reveal that most of them have shown the same amount of funds received and expenses incurred in the states where both Lok Sabha and State Assembly elections were held simultaneously. Therefore, in this report, that amount has been added only once instead of twice, to ensure the data remains accurate and clear.
- It must be noted that few political parties submitted a **combined account of their expenses for the 2024 Parliamentary elections and the four State Assembly elections** that took place alongside. This is not as per the accepted practice of submission of expenditure statements for the two types of elections in accordance with their respective deadlines of 75 days (Assembly elections) and 90 days (Lok Sabha elections). Additionally, the availability of data in such format makes it impossible to do a comparative analysis of the election expenditure over the years, which is vital from the point of view of uniformity, transparency and independent research.
- The EC issued instructions that candidates and political parties shall include all expenditure on campaigning inclusive of expenditure on advertisements on social media, both for maintaining a correct account of expenditure and for submitting the statement of expenditure. However, several **parties fail to account social media expenses independent of expenses under other heads** part of electronic media.

Recommendations of ADR

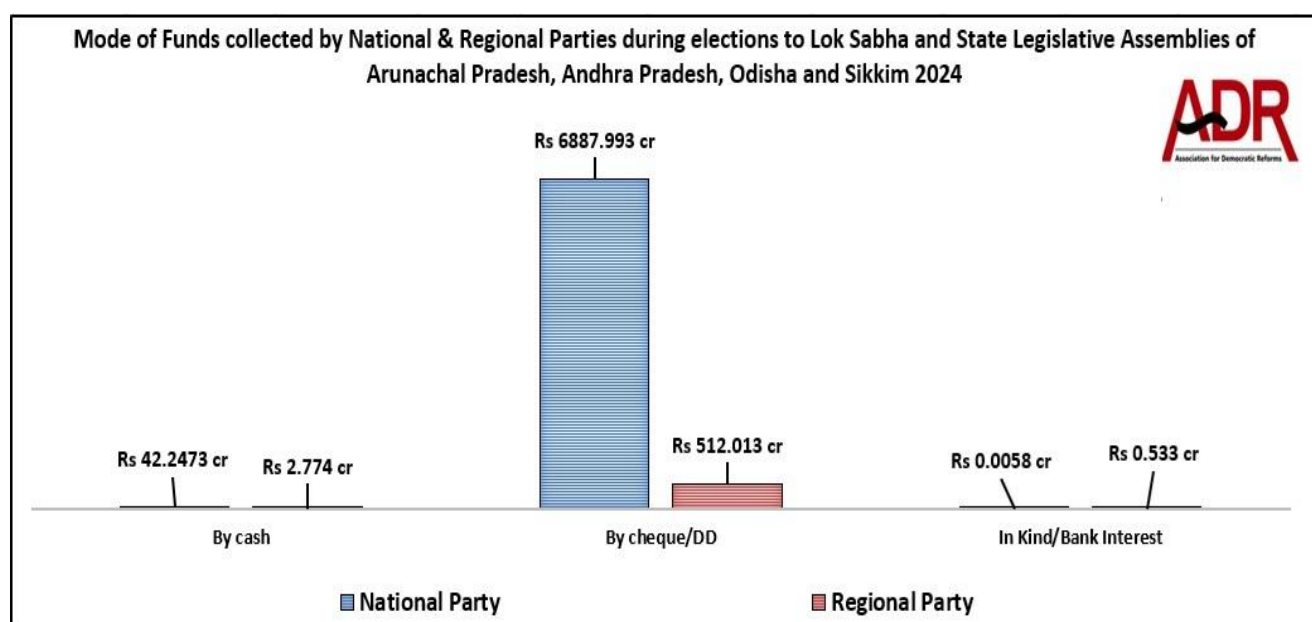

- In 2020, nine working groups (comprising of Chief Electoral Officers of states and other ECI officials) presented their draft recommendations to the ECI, among which it was suggested that there needs to be a **cap on the expenditure to be incurred for an election by political parties**. In 2015, ECI also recommended to Ministry of Law, a proposal to cap maximum expenditure of political parties to a multiple of half of maximum prescribed limit for individual candidates with the number of candidates fielded. ADR recommends that steps must be taken in this regard and the modalities must be worked out in a time bound manner.
- It must be made **mandatory for all political parties to submit their statements of expenditure in the format given by the ECI**, within the prescribed time limit. Political parties not submitting on time or in the prescribed format should be heavily penalized.
- The **details of all donors** who contribute to National and Regional parties exclusively for their election campaigns must be declared in the public domain irrespective of the amount donated.

- A **format similar to the donations report along with the date of donations**, submitted to the ECI on an annual basis, has to be prescribed for the expenditure statement so as to **bring in more transparency in the finances of the political parties especially during elections** when it is said that black money plays a major role.
- Where possible, **expenditure must be limited to transactions via cheque/DD/RTGS** so as to reduce use of black money in elections, as per the transparency guidelines issued by the ECI.
- Similar to the shadow observers of the ECI for monitoring expenditure of candidates, there must also be **observers for monitoring the expenditure of political parties**.
