Designation: Software Analyst

Location: New Delhi

Desired Candidate Profile:

Should be a fast learner with a passion to create quality software, with one to two years of prior work experience. This is a unique opportunity to work on software projects which are changing the face of India's democratic and political system.

- Knowledge of Web Application Development using PHP
- Knowledge of PHP platforms like Drupal is an added advantage
- Hand-on experience in HTML, CSS and Javascript
- Strong OOPs concepts
- Good knowledge of RDBMS
- Innovative and having good analytical skills
- Team player who can work alone as well

Main Job Responsibilities:

- Web Application development using PHP & MySQL
- Version control in GitHub
- Release management
- Other operational tasks which may be assigned by ADR on occasion

Qualification:
- UG - B.Tech/B.E.

Organizational Profile:

Association for Democratic Reforms (ADR) was established in 1999 by a group of professors from the Indian Institute of Management (IIM) Ahmedabad. ADR is an NGO working towards Electoral & Political reforms in India. Political corruption is one of the biggest challenges facing our country today. ADR believes that Information Technology will be a major part of the solution in transforming India into a real democracy.
ADR has its own IT division which has been instrumental in creation of ground-breaking softwares. ADR won a NASSCOM Social Innovation Honour for Election Watch Software in 2011 and the mBillionth Award South Asia 2012 in the category of Mobile Innovations for Good Governance.
ADR also recently won the CNN-IBN Indian of the Year Award under the Public Service category and Social Impact Award of Times of India.
